Product Information Sheet
MTC-3000 Temperature Controller

Description:

The MTC-3000 is an electronic temperature controller with advanced features such as 0.1 deg resolution, administrator, user menus as well as key lock and copy key functionality. This makes the MTC-3000 the perfect choice where a balance between cost and features is required.

Features and Functions:

- Controls Refrigeration, defrost and fan.
- User and Administrator menus separately settable.
- Temp display switchable between °C and °F.
- Resolution of 0.1 deg.
- COPYKEY function.

Technical Parameters:

- Product size: 75×34.5×85(mm)
- Mounting hole size: 71×29 (mm)
- Temperature measuring range -45.5 ~ 120 deg
- Temperature controlling range -45.5 ~ 110 deg
- Supply voltage 240 Vac
- Relay capacity compressor 8 amps
- Relay capacity fan 8 amps
- Relay capacity defrost 8 amps
